

Butylhydroxyanisole

Cat# C5147

Store at 15-25°C, protected from light

Product Information

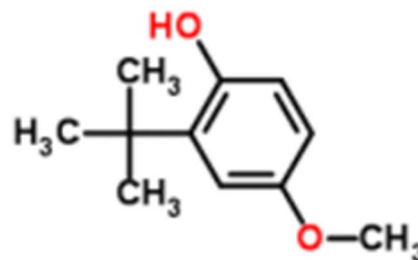

CAS No.:121-00-6

M.F: C₁₁H₁₆O₂

M.W: 180.243

Physical Description: Powder

Synonyms: BHA, 3-tert-butyl-4-hydroxyanisole

Intended Use

liquid formulation

parenterals

pharmaceutical

semi-solid formulation

solid formulation

Biological Activity or Inhibitors

Butylhydroxyanisole is an antioxidant and is typically used as an additive for the preservation of food.

Product Use Limitation

These products are intended for research use only.
