

Indole-3-Butyric Acid (IBA)

Cat# C3309

Store at Room temperature

INTRODUCTION

CAS: 133-32-4

M.W: 203.24

Formula: C₁₂H₁₃NO₂

Melting Point : 122.5~123.0°C

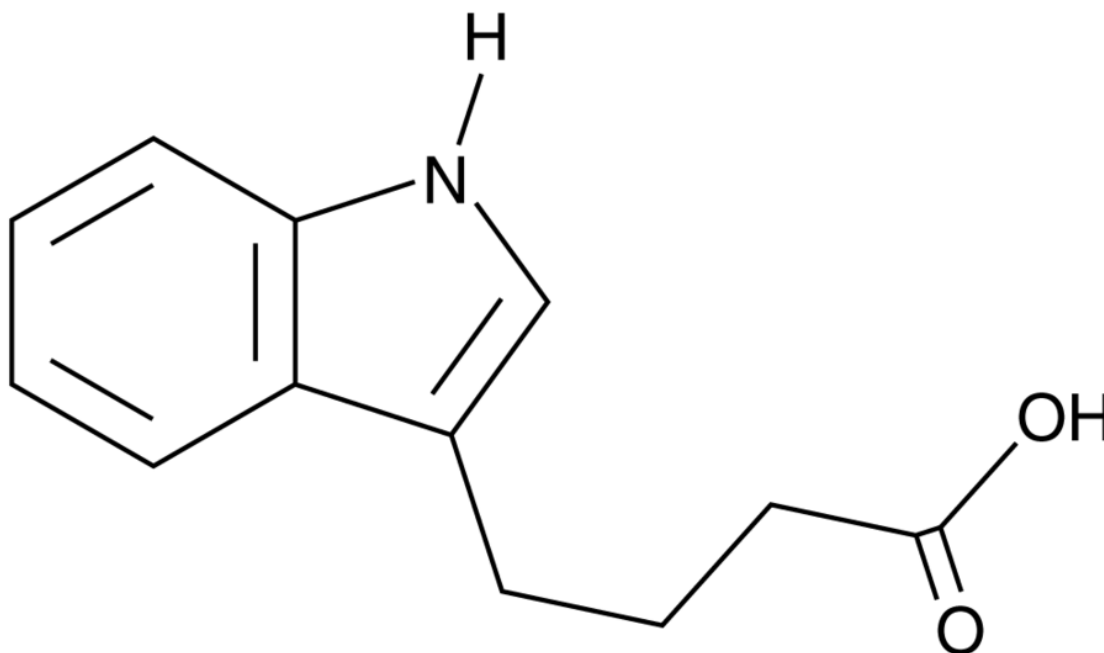

Purity: ≥99.0%

Appearance: White or almost white or light yellow crystalline powder with a slight special smell

Solubility: Soluble in ethanol, ether and acetone, almost insoluble in water and chloroform

Synonym : IBA, IUPAC, 3-Indolebutyric acid
